MEMORANDUM FOR: Chief, NSA-75

THROUGH:

Chief, NSA Listeon Staff, OCI 25X1A9a

SUBJECT:

Recall of

pelled us to examine several positions with a view towards determining the most feasible use of available manpower. We feel that the assignment of the sentative to MEA has had a very salutary effect on CHR's work in 25X1A9a compared and has resulted in a greater understanding, rapport, and appreciation of mutual problems between MEA-75 and OHR personnel. However, since the necessary close contact has been established between NEA-75 and CHR counterparts, the assignment of a full-time CHR liminous representative to MEA seems less essential than formerly. Consequently, we have decided to recall 25X1A9a to undertake a new priority assignment and do not contemplate a replacement for him at the present time.

- 2. ORR is still most appreciative of the work of NSA-75 and expects to continue as a primary consumer. If existing pressures subside and a definite most for a full-time ORR limits on representative again becomes apparent, we shall, of 25X1A9a course, nominate a replacement for the interim, any problems which cannot be worked out between NSA-75 and ORR counterparts should be referred to Support Staff, ERA, ORR.
- 3. We are most grateful to you and your associates for the assistance provided in the performance of his 25X1A9a liminon duties. It has indeed been a very successful venture.
